Programmer's Choice

Welcome

Autumn means one thing in the world of film: awards season!

The long build up to those gold statues has begun. People are talking Oscar and BAFTA - I'm talking European Film Awards (EFAs) cause that's where the real gold is. The EFAs are giving Juliette Binoche (one of my favourites ever since seeing *Les Amants du Pont-Neuf* on TV in the early '90s) the European Achievement in World Cinema Award. You can see her terrific new film *Non-Fiction* in the first week in November, as always she is wonderful.

We're delighted that we are taking part in the London Film Festival Closing Night Gala and showing Martin Scorsese's *The Irishman*. With a great cast (Pacino, De Niro, Pesci, Keitel) this might be your only opportunity to see it on the cinema screen. It's certain to be one of the biggest films of the year, and not just because of its 210-minute running time.

There are films from around the world (and even outside of Earth with James Gray's *Ad Astra* and a little alien visitor in *Shaun the Sheep Movie: Farmageddon*), fiction and documentaries, a silent film, the Inverness Film Fans new Music Season and the return of both The Royal Opera and the MET.

I hope you enjoy what you see and please do let me know what you think.
